

SURESAVE[®] OPTIX

AUTOMATED CHEMICAL
DILUTION TECHNOLOGY

What is Suresave Optix?

Suresave Optix is based on the principle of liquid optic measurement. This simple system is designed to make substantial savings on current chemical cost in addition to having a chemical stock management system in place.

International Patent Pending

Aperture Closure System

Patent Pending Aperture Closure technology will only allow the extraction of SURESAVE OPTIX concentrates by way of dispensation. This control feature prevents misuse, pilferage, contamination, wastage and therefore reducing cost.
